

Singapore, January 21, 2016

Chemoil International Pte Ltd (Chemoil) was officially announced as Singapore's biggest bunker supplier by volume in 2015 in the rankings released by the Maritime and Port Authority of Singapore (MPA) on Thursday, January 14th 2016. This is a remarkable achievement by all involved, and indicative of the success of the group's end-to-end bunker supply model established following the integration of the business into Glencore the year prior.

Singapore is the world's biggest bunkering port with a total volume of 45.1 million metric tons delivered in 2015.

We wish to extend our gratitude to our colleagues, customers and vendors for their support throughout and look forward to continued success in the year ahead.
